

3D PRECOAT RUBBER ANIMALS & SHAPES

3D Animals & Shapes are a great addition to any recreational design, seamlessly adding a third element to any installation.

These animals and shapes are prefabricated from recycled precoat rubber granules and are available in a range of colours, with custom colours or blends available upon request. Figures can be painted over with AeroCool for unique character features. Steel shafts or chains can be fabricated into figures upon request for rigid fixture or security purposes.
