

Laykold®

HIGHLIGHTS

- Certified Quality
- Only acrylic surface made by an ISO 9001 and 14001 certified company in the United States
- Can be adjusted to meet desired court pace
- Versatile application—tennis, basketball, netball, in-line, multisport, play courts and more
 - Environmentally friendly - does not contain asbestos, lead or mercury
 - A wide variety of long lasting colors
- Superior quality reputation for over 75 years
 - Custom colors available
- Nobody covers the court like Laykold®!

COLORCOAT

Laykold® ColorCoat system is a durable, fade and wear resistant, all-weather tennis and athletic surface, designed to beautify asphalt and/or concrete substrates while providing the desired speed of play.

ADVANTAGE

Laykold® Advantage system is comprised of factory textured colors using a select blend of silica sands. Batch mixing is simplified, resulting in superior quality control and a consistent surface pace regardless of location or applicator.

**Highlight: Advantage is factory textured.*

Laykold® is an acrylic sports surfacing system that can be customised to achieve the desired performance, playability and appearance, making it an incredibly cost-effective way to breathe new life into asphalt or concrete surfaces. It is easy to maintain, and re-coating can extend a court's playing life or transform it completely.

Laykold® is the official surface of the Miami Open and has been since 1984. It is a popular choice for community-funded facilities as they find new ways to increase utilisation and physical activity. The same systems are being installed at clubs and schools as they introduce a new generation of players into the sports through HotShot and NetSetGO.

Quality Endorsed Company

Laykold® is manufactured by APT Asia Pacific in our ISO 9001 Certified factory in Melbourne. APT Asia Pacific is a global leader in the development and manufacture of innovative, high performance and environmentally-friendly sports and recreational surfacing systems. The complete range includes synthetic grass for every application as well as polyurethane-based surfaces for athletics, indoor gymnasium flooring, and children's playgrounds.

PRODUCT FEATURES

	UV stable colours
	Slip resistant, injury reduction
	Long lasting, totally recoatable
	Glare resistant
	Environmentally friendly
	No heavy metals or solvents
