

Playmix Blend

Affordable Playground Safety Surfacing

**LOOKING FOR A SURFACE THAT TICKS ALL THE BOXES?
WE HAVE THE SOLUTION!**

PLAYMIX BLEND is a bi-laminate playground safety surfacing system which is poured on site and is suitable for use under and around fixed or portable playground equipment. The resultant surfacing systems are independently certified as capable of absorbing impact within limits defined by AS4422:2016 to a fall height between 500mm - 3000mm.

PLAYMIX BLEND incorporates both Gezolan EPDM and Playkote Precoat into the finished surface layer, at an equal ratio, to create a middle of the road surfacing option providing 50 percent of the benefits of EPDM at a more affordable price point.

Playmix Blend

Affordable Playground Safety Surfacing

KEY BENEFITS

- ✓ Strong, durable and incredibly versatile.
- ✓ Permanent, poured in place solution that guarantees year-round safety and compliance.
- ✓ Greater lifespan & longevity than alternatives.
- ✓ Anti-slip surfacing with shock absorbing properties.
- ✓ Facilitates inclusivity and access for children of all abilities.
- ✓ Multiple system components comprised of recycled car tyre rubber, creating a substantial environmental benefit through upcycling.
- ✓ Minimal ongoing maintenance costs.
- ✓ Safe and hygienic alternative to loose fill products such as sand and mulch.
- ✓ Fully porous system, when coupled with smart design can create a number of water management benefits.
- ✓ Compliant with AS4422, independently tested system.

Proudly Australian owned and operated, with warehouses in Adelaide & Brisbane, we are the specialists when it comes to synthetic surfaces in Australia.

Brown #046

Leaf #812 and
Yellow #069

Silver #057 and
Red #062

Shiraz #049 and
Dark Grey #045

Emerald #052 and
Dark Blue #054

Fawn * #833 and
Beige #066

Please note, all colours are affected to varying degrees by colour shift through aromatic binder coating.

*Colour: **Lighter colours such as Fawn and Caribbean** may experience a temporary yellow hue colour shift when installed with industry standard Aromatic Binders. The colour shift can last approximately 2-5 months, dependent on usage levels and UV exposure levels.

Please ask your consultant about options available if this colour is selected and finished colour accuracy is important on your project.

Please check with your consultant about colour availability.
