

Playmix Prime

Essential Playground Safety Surfacing

**LOOKING FOR A SURFACE THAT TICKS ALL THE BOXES?
WE HAVE THE SOLUTION!**

PLAYMIX PRIME is a bi-laminate playground safety surfacing system which is poured on site and is suitable for use under and around fixed or portable playground equipment. The resultant surfacing systems are independently certified as capable of absorbing impact within limits defined by AS4422:2016 to a fall height between 500mm - 3000mm.

PLAYMIX PRIME is our go to surfacing solution, using industry standard, high quality aromatic polyurethane, combined with superior Gezolan EPDM granules, achieving a strong and dependable finished surface.

Playmix Prime

Essential Playground Safety Surfacing

KEY BENEFITS

- ✓ Permanent, poured in place solution that guarantees year-round safety and compliance.
- ✓ Greater lifespan & longevity than alternatives.
- ✓ Anti-slip surfacing with shock absorbing properties.
- ✓ Facilitates inclusivity and access for children of all abilities.
- ✓ Base layer comprised of recycled car tyre rubber, creating a substantial environmental benefit through upcycling
- ✓ Minimal ongoing maintenance costs.
- ✓ Safe and hygienic alternative to loose fill products such as sand and mulch.
- ✓ Fully porous system, when coupled with smart design can create a number of water management benefits.
- ✓ Compliant with AS4422, independently tested system.

Proudly Australian owned and operated, with warehouses in Adelaide & Brisbane, we are the specialists when it comes to synthetic surfaces in Australia.

[Rust #3016]

Beige Brown #076
[Mocha #8024]

Brown #046
[Chocolate #8025]

Dark Grey #045
[RAL #7011]

Please note, all colours are affected to varying degrees by colour shift through aromatic binder coating. The colour shift can last approximately 2-5 months, dependent on usage levels and UV exposure levels.

Please ask your consultant about options available if one of these colours is selected and finished colour accuracy is important on your project. We can modify the binder to a Premium Aliphatic binder for additional cost, which will greatly reduce the colour shift effect.

Please check with your consultant about colour availability.
