

MulchMix

BONDED RUBBER MULCH SURFACING

LOOKING FOR A NATURAL-LOOKING SURFACE THAT'S BOTH LOW-MAINTENANCE AND PERMEABLE?

MULCHMIX IS AN ECO-FRIENDLY SURFACING SOLUTION, IDEAL FOR TREE SURROUNDS AND PATHWAYS.

MADE FROM RECYCLED CAR TYRE RUBBER, IT HELPS REDUCE LANDFILL WASTE WHILE OFFERING A FIXED, EASY-TO-INSTALL ALTERNATIVE TO LOOSE MULCH.

ENVIRONMENTAL OUTCOMES

- Alleviates the strain on existing stormwater infrastructure
- Returns rainwater to the ground water table.
- Reduces the amount of car tyres going to landfill.

MulchMix comprised of rubber mulch and Polyurethane Binder.

Geofabric layer (Optional)

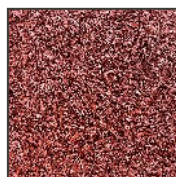

allows the roots to take in O_2 & other nutrients, enabling the release of gases to diffuse into the atmosphere.

KEY BENEFITS

- ✓ Permeable + assists drainage
- ✓ Natural bark appearance
- ✓ Durable + eco friendly
- ✓ Low maintenance + fixed surface
- ✓ Minimal sub base works required
- ✓ Created from recycled tyre rubber

APPLICATIONS

- ✓ Tree surrounds + Garden Beds
- ✓ Residential Spaces
- ✓ Courtyards + Parks
- ✓ Foot paths + Thoroughfares
- ✓ Child Care Centres
- ✓ Golf Courses

MULCHMIX is a **fixed-in-place** surfacing solution made from **recycled car tyre rubber mulch** and polyurethane binder. Designed to replicate the appearance of natural bark, it offers a **durable, low-maintenance alternative** to loose mulch.

MULCHMIX is suitable for **pathways, tree pits, parks, schools, playgrounds, golf courses, childcare centres and residential landscapes**, it is simple to install with **minimal subbase** works required.

MULCHMIX is an **eco friendly** surface, helping **reduce landfill waste** by **repurposing end-of-life tyres**. The **permeable** structure offers effective **drainage**, alleviating pressure on stormwater infrastructure and **returning rainwater to the groundwater table**.

The **flexibility and porosity** of **MULCHMIX** allows for **natural ground movement** and promotes **healthier tree root growth** by enabling water to reach the root structure, **supporting degassing**. **MULCHMIX** is a sustainable option for urban green spaces requiring both **performance & visual appeal**.

SPECIFIER'S NOTE: To specify, include the following in documentation: "Surface system to be supplied and installed as per Manufacturer and Installer Specifications, including certified depth and FHO (Free Height of Fall), where applicable." This ensures correct installation & compliance.

Proudly Australian owned and operated, with warehouses in Adelaide & Brisbane, we are the specialists when it comes to synthetic surfaces in Australia.
