PlayMix Prime

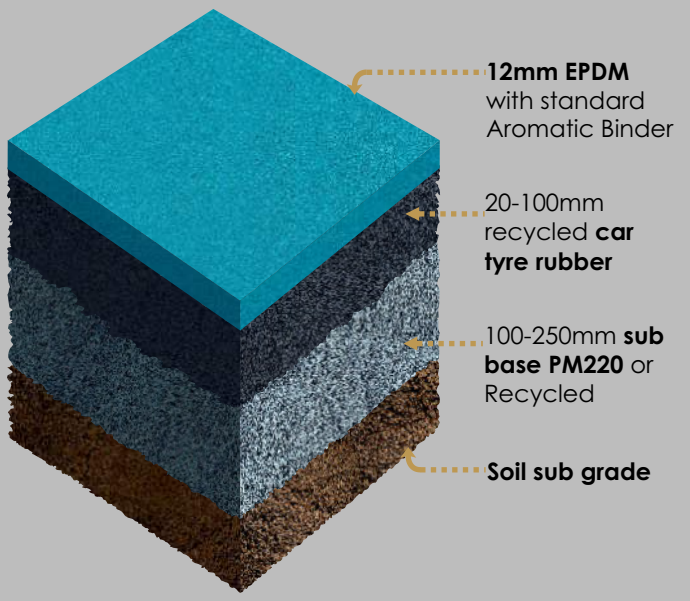

ESSENTIAL PLAYGROUND SAFETY SURFACING

LOOKING FOR THE ULTIMATE PLAY SURFACE THAT OFFERS BOTH STRENGTH AND PERFORMANCE?

OUR PLAYMIX PRIME SURFACING IS AN EXCELLENT OPTION FOR COUNCIL PLAY AREAS, SCHOOLS, AND CHILDCARE CENTRES! CRAFTED WITH GEZOLAN EPDM GRANULES, THIS DURABLE PLAY SURFACE PROVIDES A TOP LEVEL SOLUTION FOR HIGH TRAFFIC AREAS.

KEY BENEFITS OF PLAYMIX PRIME

- ✓ Shock-absorbing & slip-resistant (**AS4586** certified) for safer play.
- ✓ Permanent, pour-in-place surface ensuring safety & compliance.
- ✓ Outlasts loose-fill softfall options.
- ✓ Minimal ongoing maintenance costs.
- ✓ Cleaner & safer than sand or mulch.
- ✓ Porous surface supports water management when paired with thoughtful design.
- ✓ **AS4422** compliant & independently tested.
- ✓ Supports inclusive access for children of all abilities.

PlayMix Prime is a bi-laminate safety surfacing system, poured on-site & suitable for use around fixed & portable playground equipment. Certified to **AS4422:2016** it provides compliant impact absorption for **fall heights between 500mm and 3000mm.**

PlayMix Prime is our trusted surfacing solution, using industry standard, high-quality aromatic polyurethane binder with premium Gezolan EPDM granules to deliver a durable, high-performance play surface.

SPECIFIER'S NOTE: *To specify, include the following in documentation: "Surface system to be supplied and installed as per Manufacturer and Installer Specifications, including certified depth and FHOF (Free Height of Fall), where applicable." This ensures correct installation & compliance.*

100% Australian Owned & Operated

Proudly Australian owned and operated, with warehouses in Adelaide & Brisbane, we are the specialists when it comes to synthetic surfaces in Australia.

[Rust #3016]

Beige Brown #076
[Mocha #8024]

Brown #046
[Chocolate #8025]

Dark Grey #045
[RAL #7011]

Please note, all colours are affected to varying degrees by colour shift through aromatic binder coating. The following colours: **Blue #064** is more likely to experience a temporary yellow hue colour shift when installed with industry standard Aromatic Binders. The colour shift can last approximately 2-5 months, dependent on usage levels and UV exposure levels.

Please ask your consultant about options available if this colour is selected and finished colour accuracy is important on your project. We can modify the binder to a **UV Stable Premium Aliphatic binder** for additional cost, which will greatly reduce the colour shift effect.

Please check with your consultant about colour availability.
